

QUALITY, ENVIRONMENT, OCCUPATIONAL HEALTH & SAFETY POLICY

As **ASM Aritma Sistemleri**, we consider the principles of quality, environmental protection, occupational health and safety to be an integral part of all our activities, and we adopt a management approach based on sustainability and continual improvement.

Accordingly, we are committed to:

1. Accurately identifying and analyzing customer needs and expectations and providing products and solutions that meet the criteria of optimum cost, high quality, long service life, reliability, and effectiveness.
2. Using our resources efficiently, minimizing errors, losses, and rework through optimum utilization of time and workforce, and continually improving the quality of our products and services.
3. Working with proven products, materials, and suppliers that meet our quality standards and possess the required qualifications and competencies throughout our production processes.
4. Ensuring customer satisfaction after production and delivery by providing fast and effective solutions for technical support, revisions, and improvement requirements.
5. Controlling the environmental impacts of our activities at our manufacturing facilities and project sites; preventing environmental pollution, conserving natural resources, using energy and resources efficiently, reducing waste, and increasing recycling rates.
6. Complying with all applicable legal and other requirements related to quality, environmental management, occupational health and safety throughout all our activities.
7. Protecting the health and safety of our employees, subcontractors, visitors, and other parties who may be affected by our activities.
8. Identifying hazards, assessing risks, and implementing necessary protective and preventive measures to prevent occupational accidents, injuries, and work-related ill health.
9. Providing regular training to increase the awareness and competence of our employees regarding quality, environmental protection, occupational health and safety.
10. Providing safe and healthy working conditions, supporting employee participation and consultation, and promoting a strong occupational health and safety culture at all levels of our organization.
11. Regularly evaluating the effectiveness of our Quality, Environmental, and Occupational Health & Safety Management System and continually improving its performance.

This policy constitutes the fundamental approach of ASM Aritma Sistemleri to quality, environmental protection, occupational health and safety and serves as a guiding framework for all our employees and relevant interested parties.
